

ISC/06/PLENARY/14

*6<sup>th</sup> Meeting of the ISC  
23-27 March, 2006  
La Jolla, California, U.S.A.*

**Catch Tables for the International Scientific Committee's  
Albacore, Bluefin Tuna, Striped Marlin and Swordfish  
Working Groups<sup>1</sup>**

**March 2006**

---

<sup>1</sup>Working document prepared for the **Sixth Meeting of the International Scientific Committee on Tuna and Tuna-like Species in the North Pacific Ocean (ISC), March 23-27, 2006, La Jolla, California, U.S.A.** Document should not be cited without permission of the authors.

**Catch Tables for the International Scientific Committee's Albacore, Bluefin Tuna,  
Striped Marlin and Swordfish Working Groups**

**6<sup>th</sup> Meeting of the International Scientific Committee  
23 - 27 March, 2006  
La Jolla, California, USA**

This information document was developed to show the latest tables of catches from the International Scientific Committee's Albacore, Bluefin Tuna, Striped Marlin and Swordfish working groups. The following tables contain information collected during the last meeting of each working group.

North Pacific Albacore Working Group

- 28 November - 2 December, 2005, La Jolla, California, USA

Pacific Bluefin Tuna Working Group

- 16 - 20 January, 2006, Shimizu, Japan

Striped Marlin Working Group

- 20 - 22 March, 2006, La Jolla, California, USA

Swordfish Working Group

- 20 - 22 March, 2006, La Jolla, California, USA

**Table 1.** North Pacific albacore catches (in metric tons) by fisheries, 1952-2004<sup>1</sup>. Blank indicates no effort. -- indicates data not available. 0 indicates less than 1 metric ton. Provisional estimates in ().

<sup>2</sup> Catches for 2000-2004 contain estimates of offshore longline catches from vessels landing at domestic ports

<sup>3</sup> Other longline catches from vessels flying flags of convenience being called back to Taiwan. The catches may be duplicated in Taiwan longline catches (November 2005).

Table 2. Pacific bluefin tuna catches (in metric tons) by fisheries, 1952-2005<sup>1</sup>. Blank indicates no effort. -- indicates data not available. 0 indicates less than 1 metric ton. Provisional estimates in ().

<sup>1</sup> Catch data are currently unavailable for Republic of Korea, Philippines, and some other other countries catching swordfish in the North Pacific.

<sup>2</sup> Catches by gear for 1952-1970 were estimated roughly using FAO statistics and other data. Catches for 1971-2002 are more reliably estimated.

<sup>3</sup> For 1952-1970 "Other" refers to catches by other bait fishing methods, trap nets, and various unspecified gears.

For 1971-2002 "Other" excludes estimated catches by other bait fishing methods and trap nets.

<sup>4</sup> Offshore longline category includes some catches from harpoon and other fisheries but does not include catches unloaded in foreign ports. Estimates of catches for 2002 are preliminary.

<sup>5</sup> Estimated round weight of retained catch. Does not include discards.
