**Re: Invitation - North Pacific Marine Science Organization (PICES)
PICES-2012, Twenty First Annual Meeting**

Dear Dr. DiNardo,

On behalf of the Council of the North Pacific Marine Science Organization (PICES), I have the honour of inviting an ISC representative to be present as an observer at our Twenty First Annual Meeting to be held in Hiroshima, Japan. The theme for PICES-2012 is "*Effects of natural and anthropogenic stressors in the North Pacific ecosystems: Scientific challenges and possible solutions*".

Should ISC decide to participate, it would be greatly appreciated if the name(s) and contact information of your appointed observer(s) could be forwarded to the PICES Secretariat by July 2, 2012. If your representative would like to address PICES on collaborative issues, we will gladly arrange a time for this presentation to be given at our Committee meeting(s), to be held Wednesday afternoon, October 17.

To allow our participants to learn more about ISC, it would be desirable to have a poster display that gives some general information and highlights of your Organization's scientific objectives and recent activities. If your representative is interested in presenting a poster, please kindly indicate in your response to me so a poster board can be arranged.
